PROFESSIONAL SUMMARY

Results-driven IT Manager with 5 years of experience delivering reliable, secure, and guest-focused technology operations within the hospitality industry, including well-known hotel brands. Skilled in managing network and Wi-Fi infrastructure, Property Management Systems (PMS) and Point-of-Sale (POS) platforms, server and data centre administration, and cross-functional IT teams. Proven track record of maintaining high system uptime, strengthening cyber-security posture, and controlling IT budgets while supporting seamless guest experiences. Seeking to bring hands-on technical leadership and vendor management expertise to a senior IT Manager role.

CORE COMPETENCIES

Network & Wi-Fi Infrastructure • PMS Administration (WINHMS/WINCLOUD/HOTELLOGIX/ IDS) • Microsoft 365/Exchange/Entra & Workspace • Active Directory • POS Systems Management • Server & Data Centre Operations • Backup & Disaster Recovery • IT Team Leadership • IT Budgeting & Vendor Management • Cybersecurity & Data Protection • Guest Technology & Connectivity • Helpdesk & IT Support Operations

PROFESSIONAL EXPERIENCE

IT Manager

[May 2025] – Present

Blanket Hotel and Resorts

- Led IT operations for Multiple property of Blanket , overseeing network, Wi-Fi, PMS, POS, and server infrastructure to ensure uninterrupted guest and business services.
- Managed and Monitored, assigning tasks, conducting performance reviews, and coordinating shift coverage for 24/7 hotel operations.
- Administered the Property Management System (WINHMS/IDS) and POS systems, ensuring smooth check-in/check-out, billing, and F&B operations with minimal downtime.
- Maintained server, and backup systems, achieving 95% system uptime and implementing disaster recovery procedures to safeguard hotel data.
- Planned and controlled the annual IT budget, negotiated with vendors and service providers, and reduced IT operating costs by 60% through contract renegotiation and hardware life-cycle planning.
- Strengthened network security through firewall configuration, access controls, and regular audits, reducing security incidents and ensuring compliance with data protection standards.
- Upgraded guest Wi-Fi and in-room technology, improving guest satisfaction scores related to connectivity by 90%.

IT Manager

[August-2023] – [April-2025]

Niraamaya Life Pvt Ltd

- Supported day-to-day IT operations including network troubleshooting, hardware/software maintenance, and help-desk support across all hotel departments.
- Assisted in the roll out and maintenance of PMS and POS systems, coordinating with vendors for upgrades, patches, and issue resolution.
- Monitored server performance and backup schedules, escalating and resolving incidents to minimize operational disruption.
- Contributed to network and Wi-Fi infrastructure projects, including access point installations and bandwidth optimization for guest and staff use.
- Maintained IT asset inventory and documentation, supporting audits and budget planning for the department.

IT Executive *[January 2023] – [July-2023]*

Hotel La Classic

· Network & Wi-Fi Management: Deployed and maintained enterprise-grade network infrastructure (e.g., PT-Link Omaha Controller), managing multi-skilling access point adoptions, secure guest Wi-Fi SSIDs, custom captive portals, and voucher-based internet access for guests and staff.

· Property Management & IT Operations: Administered hospitality property management systems (PMS), guest facing technologies, and core IT hardware, ensuring minimal downtime and rapid resolution of hardware and connectivity issues across hotel facilities.

· Cloud & Email Infrastructure: Managed Microsoft 365 tenant administration, Exchange email services, user licensing, and tenant security policies to ensure reliable, secure communication across all department operations.

· Vendor & Asset Coordination: Maintained procurement schedules, printer/peripheral maintenance contracts, and technical asset inventories, regularly liaising with external vendors and internal management to optimize hardware capability and cost efficiency.
